

Kilimall Seller Center Operation Guide

Content List:

I. Basic summary of Seller Center

II. Operation guide:

1. Product Management
2. Order Management
3. Promotion Management
4. Shop Information and Decoration

I. Basic summary of Seller Center

The main functional modules of the [Seller Center](#) include: Basic Information of the Shop, Product management, Order Management, Promotion Management, Shop Setting, Service, Statistics, Account Setting and Seller Guider.

II. Operation guide

1, Product Management

Product Management includes major modules: Upload product (Products publication), Import Products (batch-upload products), products on shelf, products in the warehouse, decoration modules, product specifications, picture gallery, storage application (for FBK) :

1.1 Upload Product (Products publication)

1) Click on "[Upload Product](#)" to Select Category, click on the category to display the sub-categories until the last category is selected and click [Next](#) as shown below:

Home & Living »

Home »

Home Decor »

- Home Textile
- Kitchen,Dining & bar
- Bathroom Products
- Festive & Party Supplies
- Home Storage & Organization
- Household Cleaning Tools & Accessories
- Pet Products
- Bedroom

Home & Living » Home » Home Decor

Next

2) Click “Next”, go to the product basic information page. Fill in the blank with details to be published, **asterisk (*) is required**, as shown below:

Basic Information	
Category:	Home & Living > Home > Home Decor Edit
* Product Title:	<input style="width: 90%;" type="text"/> <small>The title need to be more than 3but less than 100 characters</small>
* Seller Item:	<input style="width: 30%;" type="text"/> <small>Seller SKU refers to the number of business management products, it is not visible to buyer.</small>
Description:	<div style="border: 1px solid #ccc; height: 40px; width: 90%;"></div> <small>The description need to be less than 140 characters</small>
* Settlement Amount:	<input style="width: 20%;" type="text"/> <small>Amount should be between 0.01~9999999</small>
* Selling Price:	<input style="width: 20%;" type="text"/> <small>It should less than market price.</small>
* Market Price:	<input style="width: 20%;" type="text"/>

Cost Price:	<input type="text"/>	Option, the price for Seller to record the cost price of the sale.
Discount:	<input type="text"/> %	According to the sales price and the market price ratio is automatically generated, do not need to edit.
* Color :	<input type="checkbox"/> steel color <input type="button" value="+ Add Value"/>	
* Size :	<input type="checkbox"/> 14*9.5*2.5cm <input type="button" value="+ Add Value"/>	
* Warehouse	<input type="text" value="Private Warehouse"/> ▼	Please choose the warehouse
* Product Stocks:	<input type="text"/>	The value should be an integer, as FBK, no need to fill out here
Stock Warning:	<input type="text"/>	Set the value of low stock warning value. Please fill in the number of 0~255, 0 is no warning.
* Product Image:	<div>  <div> <input type="button" value="Upload"/> <input type="button" value="Select from space"/> </div> </div>	

- Product Title: 3-100 characters. It is recommended that you include the key information in the title, brand, name, key features, etc;
- Seller Item: Seller's original product number, not product ID on Kilimall, won't be displayed to buyers.
- Description: sub-title, only simple basic description, 140 characters maximum, suggested 3-5 lines phrases maximum, list of functions, promotion, description of basic information;
- Settlement price: Price excluding platform commission;
- Selling Price: Final price displayed online, including seller's all cost.
- Market Price: Normal price in the market filled in by sellers, must be higher than the selling price;
- Cost Price: Product cost, only for seller's record, it isn't shown online;
- Discount: System automatically generates;
- Warehouse: For Global Shipping and Drop Shipping, select **Private Warehouse**, for FBK select **FBK warehouse**;
- Product Stocks: Fill in the stock quantity available, FBK mode cannot be filled in here;
- Stock Warning: Warning shown on Seller Center if only small quantity left.
- Upload: Upload the first product image here, the image format can be jpg, gif, png, the image size should be **640px * 640px, less than 1M**. Can upload directly from the computer or from pictures space. For more pictures, it should be uploaded later after this page submitted.

Remarks: Must fill in and select the attribute if there has, like color or size. If only have one color or one size, just write "One Color" or "One Size" and select. Once selected, it can't be changed after being released. For Multi-attributes products, after adding attributes such as color or size, then a list will appear with the prices, inventory, SKU no., that should be written one by one here, as shown below:

Color : ☐ light blue ☐ pink ☐ deep red ☒ Grey

☒ Black

Add or remove color specifications, please edit the picture after submission to ensure that the product image can accurately display.

Size : ☒ S ☐ M ☐ L ☐ XL

Allocation Inventory:

1.2 Products on Shelf

- 1) Click “Product on Shelf” in the left column, there will appear the product list on sales;
- 2) This page includes the function modules: Search, delete all, take off shelf and separately delete, edit product details;
- 3) Can upload new products by “Add new product”, and modify product details by “Edit” to access the product page. As shown below:

The screenshot shows the 'Products on Shelf' interface. On the left is a sidebar with navigation options: Product, Upload Product, Import Products, Product on Shelf (selected), Warehouse, Decoration Modules, Specifications, Picture Gallery, and Storage Application. The main area has a top bar with 'Products on Shelf' and an 'Add New Product' button. Below this is a search bar with 'Shop' set to 'Please select', 'Logistics Type' set to 'All', and 'Search Type' set to 'Product Title'. A 'Search' button is to the right. Below the search bar is a table of products. The table has columns: Product Title, Price, Stock, Time, and Operation. The first product is '1pc Nessie Spoon Creative Cute Dinosaur Spoon Large Soup Spoon Kitchen Utensils Cooking Tools' with a price of KSh 720, stock of 60, and time of 2016-12-19. The second product is 'Silica gel kitchen supplies cartoon animal dining pad bar cup pad' with a price of KSh 650, stock of 800, and time of 2016-12-12. The 'Operation' column contains 'Select All', 'Take off Shelf', 'Set Adwords', 'Set Layout', and 'Delete' buttons. The 'Edit' button is highlighted in red.

- 4) Enter the edit page, could edit the product details and images again. Also can add **gifts (Buy one get one or more)** and **recommend products to Shop Homepage**.

The screenshot shows the 'Edit product' interface. The top bar has 'Edit product' (selected), 'Edit image', 'Gifts', and 'Recommended'. Below this is the 'Basic Information' section. The 'Category' is set to 'Home & Living > Home > Furniture'. The 'Edit' button is highlighted.

1.3 Products in the warehouse

- 1) Click in the left column “Warehouse”, expand product list in the warehouse (Offline status);
- 2) There are product classification and search by product name, product no.(SKU ID) as shown below:

The screenshot shows the 'Products in the warehouse' interface. On the left is a sidebar with navigation options: Product, Upload Product, Product on Shelf, Warehouse (selected), Decoration Modules, Specifications, Picture Gallery, and Storage Application. The main area has a top bar with 'Product in Warehouse' (selected), 'Illegal Product', and 'Pending Audit'. Below this is a search bar with 'Shop' set to 'Please select', 'Product Title' set to 'Product Title', and a 'Search' button. Below the search bar is a table of products. The table has columns: Product Title, Putaway, Price, Stock, and Operation. The first product is 'Women Colorful Fluff Balls Sandals Thick Heel Sandals' with a price of KSh1369.00, stock of 16 pieces, and time of 2016-12-19. The second product is 'Women Casual Loafers Flat Shoes Lace Hemp Rope Shoes' with a price of KSh1159.00, stock of 16 pieces, and time of 2016-12-12. The 'Operation' column contains 'Putaway' and 'Edit' buttons. The 'Putaway' button is highlighted.

1.4 Associated modules

1) Click in the left column “Decoration Modules”, as shown below:

Seller Management Center > Product > Decoration Modules

Layout List Create

Operating Tips:
If you use this module, it will insert the pre-designed content at the top or bottom of the product description. It is convenient for the seller to modify batch order or to alter the product.

Location Module Search

Module	Location	Operation
--------	----------	-----------

No records match the conditions

2) Click the "Create" button to add a new plate, as shown below:

Layout List **Add Layout**

* Format name:
In order to make it easy upload products, please enter the name within 10 characters.

* Layout position: ☒ Top ☐ Bottom
Select the location for the associated layout to insert into the page, select the top of the contents of the above details for the goods, the bottom as the product details below.

* Layout content:

1.5 Product Specifications

1) Click in the left column “Specifications” as shown below;

2) Select the product category to read the specifications of the products for the store.
